

# KYAW THET HTWE

## FRONTEND DEVELOPER

📞 061-273-6866    ✉️ kyawthethtwe595@gmail.com

## PROFILE

Junior Web Developer with a strong foundation in frontend and backend development, specializing in Next.js, TypeScript, and Tailwind CSS. Passionate about building scalable and user-friendly applications with modern state management (Zustand, React Query) and API integrations. Developed personal projects like a room rental platform and a second-hand e-commerce marketplace as part of my learning journey. Currently contributing to the development of the RMUTI university website during my internship and working on the Asia Tire Venture (ATV) project. Eager to apply my skills in a professional setting, solve real-world challenges, and continue growing as a developer

## WORK EXPERIENCE

### Frontend Developer Intern (App Intouch Co.,Ltd)

6 Jan 2025 - 6 May 2025

- Developing and maintaining the RMUTI university website to enhance performance and usability.
- Collaborating with a team to implement modern UI/UX designs and optimize site functionality.
- Contributed to the Asia Tire Venture (ATV) e-commerce project, working on frontend improvements.
- Gained hands-on experience in Next.js, TypeScript and frontend development while working on real-world projects.

### Hackathon Finalist

- Participated in University Hackathon, where I collaborated with a team to develop a project with Gemini AI technology.
- Utilized specific technologies or skills, e.g., JavaScript, React, APIs, Gemini AI to create innovative solutions under time constraints.
- Gained valuable experience in rapid prototyping, problem-solving, and teamwork.

### Tech Seminar Management

- Coordinated and managed a university tech seminar with a team.
- Collaborated with team members to plan and execute seminar activities, including speaker coordination and event promotion.
- Demonstrated strong teamwork in handling responsibilities such as registration, venue setup, and participant engagement.

### Volunteer Experience

- Volunteered as a frontend developer at Rangsit University Language Center, contributing to the enhancement of digital resources and improving the user experience and functionality of the center's website using technologies such as HTML, CSS, and JavaScript, Typescript, React.js and Tailwind CSS.

### Peer Mentor - English

- Lead one-on-one and group mentoring sessions to assist Thai students in improving their English language skills.
- Collaborate with program coordinators to assess the progress of mentees and adjust mentoring strategies accordingly.

## SKILLS

### • Frontend

Next.js, React.js, TypeScript, JavaScript, Tailwind CSS, Radix UI, Shadcn UI, Zustand, React Query, React Hook Form, Zod

### • Backend Intermediate

Nest.js, Node.js, Express.js

### • Database

PostgreSQL, MongoDB

### • Tools

Git, GitHub, Postman, Visual Studio Code

### • Eager to learn new technologies

### • Strong understanding of data structure and algorithm

### • Familiar with cloud and AI technologies

## EDUCATION

### BSc in Information and Communication Technology

Rangsit University

## LANGUAGES

BURMESE - (Native)

ENGLISH - (Fluent)
